Note from the Wagin Camera Club.

Well done to all those who entered, there was such a great variety of images. Please be careful with the resolution, as some photos came in very low res and enlarging them sadly reduced the quality. This often happens with images taken with a mobile phone. Please watch for distractions and just move a little to the left or right to get better composition. Also don't forget to use your mobile phones' editing system, it really is a very good way to improve your photos. Thanks for entering and it has been a great pleasure judging all the wonderful images.
