

Welcome June... a perfect time to plant

Would you like
beautiful blooms like
Trevor?

Grab some seed by
clicking [here](#), or better
still, visit one of
our [retail outlets](#)!

THREE reasons why planting in June brings BETTER BLOOMS!!

1. Your flowers will be fresher in Spring!

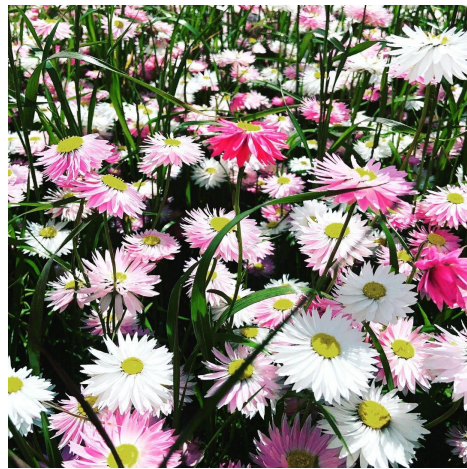

If you sow early in between March-May
your flowers will arrive in mid July and
August... but by Spring they will be faded
and tired. Sow in June onwards, and the
flowers will be brighter and still lovely well
into Spring!

2. You will have better weed control

By the time June comes along, most

weeds have germinated through the warmer autumn months. Planting in June gives a great opportunity to control your weeds, then you can sprinkle your everlastings onto a seedbed with less chance of weeds coming up!

3. You will have plenty of water!

By now most places have had rain and by now you won't need to worry that the soil is not wet enough for germination!

If you have already planted, and they've come up...

You can...

1. Fertilise with an all purpose fertiliser ([click here for further info](#)). Best to apply when the seedlings are about 8cm high.
2. Look to control weeds ([if there are any click here](#)). If you are spraying grass weeds, best to spray when the weeds are 2-leaf and before tillering. Otherwise you will have to hand-pick weeds.
3. If your everlastings are perfect, do nothing!

DOWN ON THE FARM

This is our airseeder box, filling up with seed and fertiliser. Here we are seeding canola at our Frankland property.

This is our everlasting crop, germinating in March after the first rains. It has come up beautifully, self-seeding from the 2022. We will plant another crop soon.

Katanning Garden Club ladies ❤️🌸

Katanning garden club ladies having a bit of fun for the International Naked Gardening Day! Lucky the morning was warm and sunny!

CONGRATUALATIONS TO-
Leigh Ray from Bellair WA
Kristy Blythe from Woodridge WA
Michelle Singleton from Swan Hill VIC
Jo Peters from Clackline WA
Celeate Franklin from Riverton
A parcel is coming your way soon! Yay!

Keep in touch | We'd love to hear about your experience of growing Lucinda's and Zara's Everlastings. Send some pictures!
